

ANOUK ROBBEETS

PROFILE SUMMARY

My passion for acrobatics and dance has been a driving force since a young age. After a 13-year career in acrobatic gymnastics, I am now pursuing a self-taught path in the circus world, focusing on aerial acrobatics. I am known for my high-quality performances, refined lines, musicality, and captivating stage presence.

With a versatile background—combining my artistic career with a master's degree in engineering, contributions to climate projects, and engagement with youth in underprivileged communities—I approach the world with an open mind. These experiences serve as a deep source of inspiration in my creative process, shaping visually striking performances.
